ALL ABOUT HURRICANES PACK

Strong winds

Hurricanes are classified by the number of ft/sec. To reach 119 mph, what winds are needed? Is it safe to live near the most powerful hurricanes?

Low-pressure center

In the eye of a hurricane is a calm area. How big is the eye? The eye is roughly oval and about 30 miles across. How does the calm compare to the surrounding winds?

Birth of a hurricane

Step 1: tropical disturbance

A tropical disturbance is a group of disorganized clouds that may develop into a storm or a hurricane at a later time. What happens to a disturbance as it becomes a storm or a hurricane? Why are the cold seas, for instance, dangerous?

Step 2: tropical storm

What is it called?

WEATHER

READING COMPREHENSION

Snow in the Sahara

It does not seem likely snow in the Sahara Desert in December 2005. It seemed so when we saw pictures of the Sahara Desert. This is impossible.

The Sahara Desert is usually very hot and dry. It is one of the driest places in the world.

The Coldest Place on Earth

1. What is the coldest place on Earth?
 2. How cold is it?
 3. What is the name of the place?
 4. What is the name of the person who discovered it?

Raining Hot and Frosty

1. What is the name of the storm?
 2. How cold is it?
 3. What is the name of the place?
 4. What is the name of the person who discovered it?

Blizzard Rain Answer Key

Passage 1:
 1. What is the name of the storm?
 2. How cold is it?
 3. What is the name of the place?
 4. What is the name of the person who discovered it?

Passage 2:
 1. What is the name of the storm?
 2. How cold is it?
 3. What is the name of the place?
 4. What is the name of the person who discovered it?

Passage 3:
 1. What is the name of the storm?
 2. How cold is it?
 3. What is the name of the place?
 4. What is the name of the person who discovered it?

Passage 4:
 1. What is the name of the storm?
 2. How cold is it?
 3. What is the name of the place?
 4. What is the name of the person who discovered it?

Monthly weather chart

Monthly weather chart

A collection of four hurricane tracking templates. The top template is a title page with the text 'WELCOMEMONTESSORI.COM' and 'HURRICANE TRACKING TEMPLATES' in large, bold, white letters on a dark grey background. Below the title are four overlapping white templates. The first template is a 'Hurricane Log' with a header for 'Name', 'Year', and 'Category', followed by a table for tracking 'Hurricane Activity' with columns for 'Date', 'Location', 'Wind Speed', and 'Damage'. The second template is a 'Weather Observation' form with a header for 'Name', 'Year', and 'Category', followed by a table for tracking 'Weather Observations' with columns for 'Date', 'Time', 'Wind Speed', 'Direction', and 'Clouds'. The third template is a 'Hurricane Tracker' with a header for 'Name', 'Year', and 'Category', followed by a table for tracking 'Hurricane Activity' with columns for 'Date', 'Location', 'Wind Speed', and 'Damage'. The fourth template is a 'Hurricane Tracker' with a header for 'Name', 'Year', and 'Category', followed by a table for tracking 'Hurricane Activity' with columns for 'Date', 'Location', 'Wind Speed', and 'Damage'.
